Opinion: Japan	The Bank of Japan continues to confound those who call for further loosening of monetary policy. Is the Bank of Japan failing to listen? Or do those who think they have the answer to Japan's woes not fully understand its predicament?	1
Bank notes	Salient events and issues that have affected central bankers over the past three months.	6
Central bank vital statistics	The average life expectancy of central bank governors is around six and a half years and staff numbers at central banks are falling, according to the results of the latest <i>Morgan Stanley Central Bank Directory 2002</i> .	10
SPECIAL FEATURE:	Introduction	
Central banks in the war against terrorism	<i>In recognition of dramatic recent events we dedicate much of this issue to analysis of the implications of the attack on the World Trade Center and the war against terrorism.</i>	
	Initial impact: <i>Central Banking</i> takes a factual look back at the immediate effects of the attack on the World Trade Center. How did markets react and what was the early response of the leading central banks?	14
	Implications: What are the longer term implications of the terrorist campaign for economic development, monetary and fiscal policy and central bank operations? To safeguard the financial system central banks may have to think the unthinkable.	19
	Regulators: How easily can the financial system absorb the destruction meted out on lower Manhattan? What will be the likely impact of the world's biggest insurance losses? What must be done to ease these pressures? These are just some of the questions that market regulators will now be tackling.	26
	Terrorist funds: The financial landscape will be one of the battlefields of the new war on terrorism. <i>Central Banking</i> identifies who will be asked to fight, the tactics they might use and the difficulties they are likely to face.	30
Interview: Stanley Fischer	Robert Pringle talks to the former first deputy managing director of the International Monetary Fund about the impact of the 11 September attacks and global macroeconomic policy.	33

Central Banking Volume XII No. 2

Euro Issues	Chaos or success?	41
	William Clarke, chairman of Central Banking Publications, considers the challenges that confront the imminent introduction of euro notes and coins.	
	In or out?	47
	While the potential benefits of UK entry are widely discussed, the risks of rejecting euro membership are less well known. Here City economist Graham Bishop considers the threat to the City of London.	
CLS Bank	A new scheme, planned to go live next year, is likely to have a major impact on foreign exchange markets. Peter Allsopp, former Head of Payment Systems at the Bank of England, explains how continuous linked settlement will work and the approach of central banks to the scheme.	52
Australia and New Zealand	In the last article of a four-part series, Michael King outlines the events that led to central bank independence in the Antipodes. Despite their apparent similarities Australia and New Zealand implemented very different institutional arrangements. Why?	58
Accountability	The trade-off	69
	Central banks and governments have had to choose where along the spectrum between accountability and independence to be positioned. Rosa Lastra describes the choices involved and explains the place of transparency.	
	Financial reporting rules	76
	The adoption of international accounting standards is an important component of central bank transparency. But the standards are generally not conceived with central banks in mind. Joshua Kurtzig explains how central banks should deal with the treatment of foreign exchange gains and losses and the valuation of government assets under the International Accounting Standards.	
Monetary policy strategy	Europe's quest for monetary stability has taken stops at the ports of money targetting, exchange rate targetting and, most recently, inflation targetting. Aerdts Houben considers the lessons that have been learned.	82
City state	William Clarke reviews a new book, by economic historians David Kynaston and Richard Roberts, tracing the development of the City of London and its place in society.	91
